

2025 South African Wine Classification

- **South Africa's top wines and cellars over the past 10 years – the best track records from 2015 to 2024**
- **According to the top panels – the experts' ranking of South African wines as reviewed around the world**

The SA Wine & Cellar Classifications, updated annually since 2004, are based on the top ratings by the most respected panels locally and internationally when it comes to assessing wine quality and interest value in a 'blind tasting' environment – the identities of the wines and their producers withheld to avoid positive or negative bias in terms of brand status, the origin of the grapes and the location of the cellars.

The opinions of individual critics do not have a bearing on the Classifications. Nor do the results of certain questionable wine competitions. Depending on both the number of vintages that receive top accolades and the nature of the accolades, the best track records are highlighted in showcasing which of the wines produced in South Africa are most highly rated on a consistent basis.

Compilation of the SA Wine & Cellar Classifications by Mike Froud, Top Wine SA:

Top South African Wines by Area – 2025 Classification

The most highly rated wines of the Cape over the past 10 years – presented according to where the producers' cellars and/or their tasting rooms are located, which is not always the same as where the grapes come from (e.g. label with Elgin in the name even though the winemaking is completed at a cellar in Stellenbosch)

How the SA Wine & Cellar Classifications are determined:

ELIGIBILITY FOR CLASSIFICATION

- For a wine to qualify for the South African Wine Classification requires at least three vintages of that wine to be highly rated by a panel of wine experts locally or internationally (as listed below/overleaf) within a 10-year span of vintages during the 10-year period under review – with the most recent vintage to be highly rated having been highly rated within five years prior to the Classification.

CLASSIFICATION SCORING SYSTEM

- Each highly rated vintage is scored between 4 and 10 points according to how high the rating is (see table below/overleaf). If a vintage is rated by a panel more than once, only the highest of these ratings counts towards the Classification.
- In the case of a vintage being highly rated by more than one panel, such a vintage is given 1 to 3 extra points for a second top rating (by a different panel) according to how high the second rating is, and an extra point for each additional top rating (by a different panel).

Best of the Best

The most highly rated wines in the South African Wine Classification – the best of the best track records over the past 10 years.

Hall of Fame

The South African wine producers applauded for the Best of the Best in terms of the SA Wine Classification.

Ratings that count towards the South African Wine Classification
